

STAFFING SERVICE USA Mask Notification

Masks or face coverings are currently mandatory for all employees and must be worn to cover the nose and mouth when entering and working in all business settings. This is to help to prevent additional touching of the face and spreading your germs to others.

- A Mask will be provided to SSUSA employees while supplies last or you can pick one up at the office
- SSUSA MASKS are washable
- Always put the logo side on the outside for knowledge of putting the mask on the same way as you don't want to wear the wrong side against you face.
- Store in a paper bag or bag with your name
- This mask should be hand washed with soap and water and then let dry flat
- If you are need of additional masks, please contact SSUSA at 717-569-7800 for details on receiving a 2nd mask.

Additional Mask Information

- If you do not have a mask you can make your own mask for entering client's location.
- Watch the video on how to make a mask on our resource page.
- Masks should be stored appropriately when not in use. Paper bags or zip lock bags for storage of face covers would be best.
- Masks can never be shared or used by multiple people
- Masks or facial covers must be worn while entering the plant to begin your workday. If needed, re-use an appropriately stored face cover from the last time worked to enter the plant, get a new cover for the day after entering, and then dispose of the old cover if it is not washable.
- Look up a YouTube video on how to take on and off a mask / do not touch the front of a mask
- Always wash your hands before putting you mask on and after removing.

Disclaimer: These masks may or may not stop you from spreading or catching COVID-19.
